

Queen Curveball was born and raised on the sunny California Central Coast in a town called San Luis Obispo. From her humble beginnings of raising goats and cattle on the farm, she eventually grew into the glam queen she is today with the help of friends who awakend the diva inside. After graduating with a degree in Experiential Design from Cal Poly State University, she packed up her things and moved to Atlanta, attracted by the beauty, power, and community of the city and its queer nightlife. Curveball is thrilled to be part of the iconic, legendary *herstory* of The ATL and the community of divas the city has produced.

Hi Divas!

My name is Curveball and I'm so glad you're here to learn a little more about me! People like to use words like "sophisticated," "silly," and "sexy" to describe me- and they're correct. I'm a showgirl through and through, inspired by burlesque, vintage glam, and mod couture. A few icons who inspire me are Violet Chachki, Miss Fame, and Gigi Goode. To see this goddess up close, you can find me at the club, community spaces, private events, and more. I can't wait to see you soon!

Kisses,

Curveball
